Cultivating Curiosity

vedaant[®]
VIDHYAKULUM

I Would give wings to Children, but I would leave it to them to learn how to fly by them selves.

-Gabriel Garcia Marquez

Aspirations

I am delighted that you are considering Vedaant Vidhyakulum for your child. I believe in "Culture of excellence" i.e empowering each child with knowledge and Vision to ensure that my students achieve their highest academic and personal potential. I aim to give my students a firm foundations based upon an understanding of Indian society & ideas. Hence forth, more globally aware citizens are prepared for the rigors of 21st century..

Thanks for our management which is constituted of eminent educationists, administrators & philanthropists. Their support and encouragement is the back bone of our institute..

Mrs. Neelam Khandelwal - Academic Director

Journey Of vedaant®

We are 20 years young, and we bring new to the table every time.

We began in 1999, with our first set up in Indore, manorama ganj with a spacious, well acquainted, scientifically designed preschool, with modern facilities (in that period) like swimming pool, parks, skating rink, play zones, Montessori lab, activity classrooms, and a focus on activity-based learning, experiential academics. Parents realized the importance of this approach within a year, we were able to communicate effectively the importance of competitive preschool in the formative years of child's development through our teaching methodology.

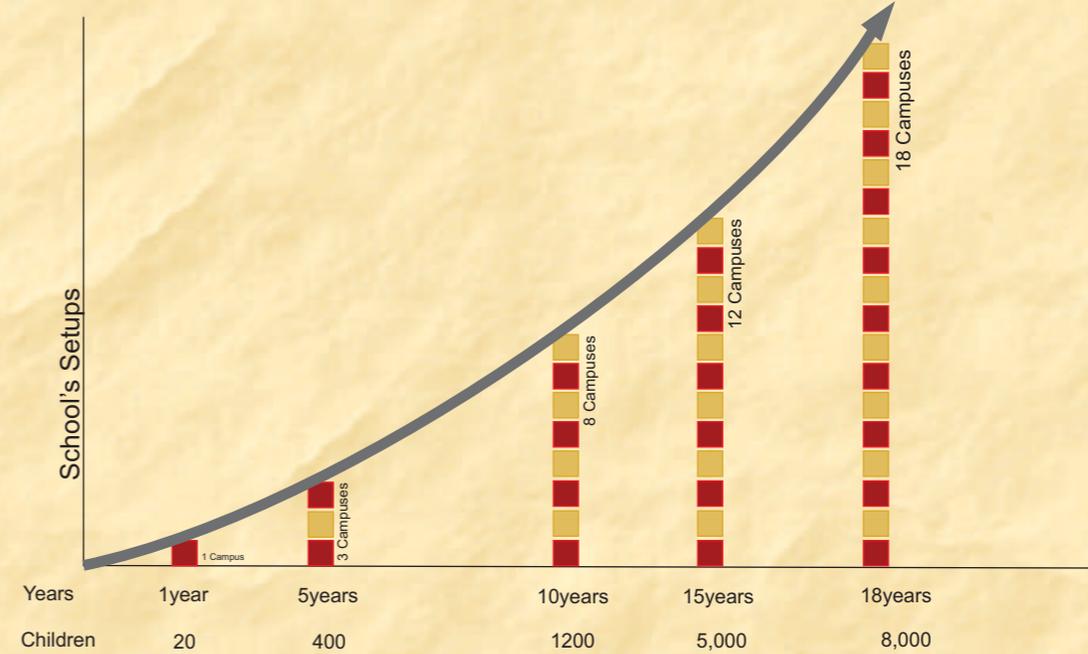

We are recognized as one of the top preschools delivering high-quality education with premium infrastructure and facilities. Vedaant preschool is present at 18 different places in and around Indore making education more accessible. "The biggest, the largest & the nearest preschool for the people of Indore", today Vedaant preschool has a workforce of over 200 highly trained and professional teachers along with many quality managers, & highly accomplished academic heads working with a raised bar of education for child development.

It is the support of the parents that helped us achieve this fate and we were and are able to transform into a productive education institute. We now envision even higher standards in education and with our initiative. 'Vedaant Vidhyakulum', we want this opportunity to reach more students across the country.

Education is not the learning of facts, but the training of the mind to think.

-Albert Einstein

Our Motto

शिक्षा अर्थात् मनुष्य की सृजनात्मक वृत्तियों को सम्पूर्णतया विकसित करने योग्य वातावरण, अनुकूलता तथा मदद देना ।
यह मदद मिलते ही मनुष्य अपने भीतर से वास्तविक स्वरूप में बाहर आएगा,
वह स्वयं को जानेगा, अपने मूल स्वरूप को वह उत्तरोत्तर आगे बढ़ाएगा
और उसे पूर्णता तक पहुँचाने का प्रयत्न करेगा ।

I can do things you cannot, you can do things I cannot, together we can do great things.

-Mother Teresa

Vision and Philosophy

Presently, parents and teachers are aware that standardize learning, assessments are one dimensional and are incapable of equipping kids for the challenges of 21st century. The next generation children require skills to successfully negotiate dynamic and uncertain demands of the future world.

Vedaant Vidhyakulum acknowledges the inevitable requirement of each child and fulfills it to make him/her a learner required to be confident, creative, well-connected, aware, collaborative problem solver and quick decision maker.

Vedaant's mission is to provide a stimulating environment in the campus which will make an integrated and fully composed personality through day to day real world experiences and trials.

We understand that every child is unique and needs constant encouragement, a feeling of being free, discipline and a plethora of opportunities to explore. Nowadays, the excess love and the typical comfortable environment in the homes are not the right platforms for meeting the above mentioned ends. Vedaant Vidhyakulum envisions a school that will provide a balance of love, care, opportunities, learning for an all-over upliftment of a child.

Vedaant Vidhyakulum is committed to academic excellence, holistic development, and value-based education by providing a healthy and supportive atmosphere, where students irrespective of gender, aptitude or economic background are nurtured to be self-directed, life-long learners.

“ Welcome to Vedaant Vidhyakulum School”

“A learning abode away from home”

We have a flexible boarding facility, another distinctive feature of Vedaant Vidhyakulum. School offers daily, weekly and term boarding options to the students. The flexible options provided by the school have been designed keeping in mind the comprehensive development of a child.

Our firm belief lies in nurturing healthy psychosom of a child, a healthful surrounding and happy aura that plays a vital role which can only be provided in a home away from home i.e 'A School'.

At Vedaant, preparation of extensive activities, programs and hurdles is done on a daily basis. This is one of the many benefits that will make you understand the perks of weekly boarding at Vedaant Vidhyakulum and its advantages over a regular school.

The future depends on what we do in the present.

-Mahatma Gandhi

info@vedaant.org

Why Vedaant Vidhyakulum ?

1) A teaching to be independent or being self-sufficient might be the greatest gift that a parent can give to their children. Today, when almost every guardian is hyper-vigilant and wants to be involved in every aspect of child's life, Vedaant Vidhyakulum School can be the perfect antidote.

(Developing independence)

2) Children are required to getting through the elements like getting up in the morning, managing their daily rituals, understand their responsibilities and more. Parents aren't always there to shield them from unpredictable circumstances. Vedaant Vidhyakulum is a good place to fail and succeed – which makes school a great place to learn.

It can be termed as checked freedom. (developing responsible behavior)

3) After school life, children should be prepared to handle their own lives, become strong individuals; capable of leadership and have self- initiative. But in present state of our culture, it is somewhat difficult for the parents to develop these in a child. But again, in Vedaant Vidhyakulum the culture provided helps a child to gain all attributes smoothly.

4) In such mechanical and busy lives, parents have no time to make their children acquainted with handling people and relationships. In the weekly boarding environment of Vedaant Vidhyakulum kids are made to develop their interpersonal skills and manage their lives. Thereby promoting the building and maintaining of social relationships.

5) A typical day boarder isn't stimulated to generate the same peer skills as a kid who lives with other students 24 hours a day on campus. Vedaant Vidhyakulum would be a transformative experience in learning to communicate with others, something a lot of people don't get even after completing their graduation.

6) A child would get a sense of being in a diverse community as he/she would encompass different cultures at one platform and this diversity would make a child successfully handle personal growth. (Unity in diversity)

Enjoy the game and chase your dreams, dreams do come true.

-Sachin Tendulkar

info@vedaant.org

7) Vedaant Vidhyakulum would offer the opportunities for students to foster intense connections with their teachers as the teacher work with students, share meals and often live on campus, making it a conducive environment which is difficult to copy anywhere else. So opportunities will be identified much higher in our children.

8) While the educational experience at Vedaant Vidhyakulum is important to personal and educational growth and development. It's also a precursor to life after school. Researches show that children with occasional boarding experience feel more prepared for college and university than their peers in regular schools. Furthermore, they are more likely to earn more advanced degrees. schools. This would be followed by fostering a sense of friendship and expanding the interpersonal skills and healthy sportsman spirit.

9) Exceptional infrastructure for sports would encourage all the students to take part in at least one outdoor activity every day. This serves to provide confidence among children and also help them to be physically fit. The daily practice sessions of students would reflect in their interschool and interstate competitions. These are the places where these hardworking students cum players would interact with students from other schools. This would be followed by fostering a sense of friendship and expanding the interpersonal skills and healthy sportsman spirit.

10) Students are also required to take part in at least one Extracurricular activity daily that are designed to understand and build team spirit which in turn would help in intellectual development. This is a very Vital aspect of education which generally a regular school neglects.

11) Vedaant Vidhyakulum School offers fewer distractions to children as they are well preserved from the life of urban areas. when bad habits like watching irrelevant shows on T.V., playing mobile games, unnecessary demand for gadgets are not reciprocated, children then are able to concentrate more on studies and other useful activities. These kids invest more time in shaping themselves and their bright future.

12) In the ever competitive world today, where everyone is running fast to fulfill their aspirations, parents hardly get any time to spend with their kids. Interestingly, the housewives too are unable to spare that time when their children are back from school.

They end up wasting that valuable time in watching some nonsensical show on television. Vedaant Vidhyakulum has developed a system where the family would eagerly wait at the weekends (Saturday and Sunday) for the kids to cherish the quality time they would have in their hands as parents would keep themselves free from work. No homework or related pressures goes without saying. A platform like this is a blessing in disguise for all those newly sprung buds who need to grow up as beautiful flowers.

Vedaant Curriculum Objectives

Vedaant believes in holistic development of its pupils to transform them gradually into an accomplished human being. This involves physical fitness, mental alertness, intellectual inclinations, emotional balance, achieving fulfillment, social responsibility & spiritual awareness.

During their time in Vedaant, each one of the above need will be strengthened by constantly providing the necessary inputs in the respective field of study.

The winners of the 21st century will be those who can transform themselves symbolically into a wheel which would exemplify high maneuverability and smooth drivability on any terrain, with any vehicle and in any climate. We at Vedaant believes in the same concept and relate to the notions of "Peter Drucker" the father of business management.

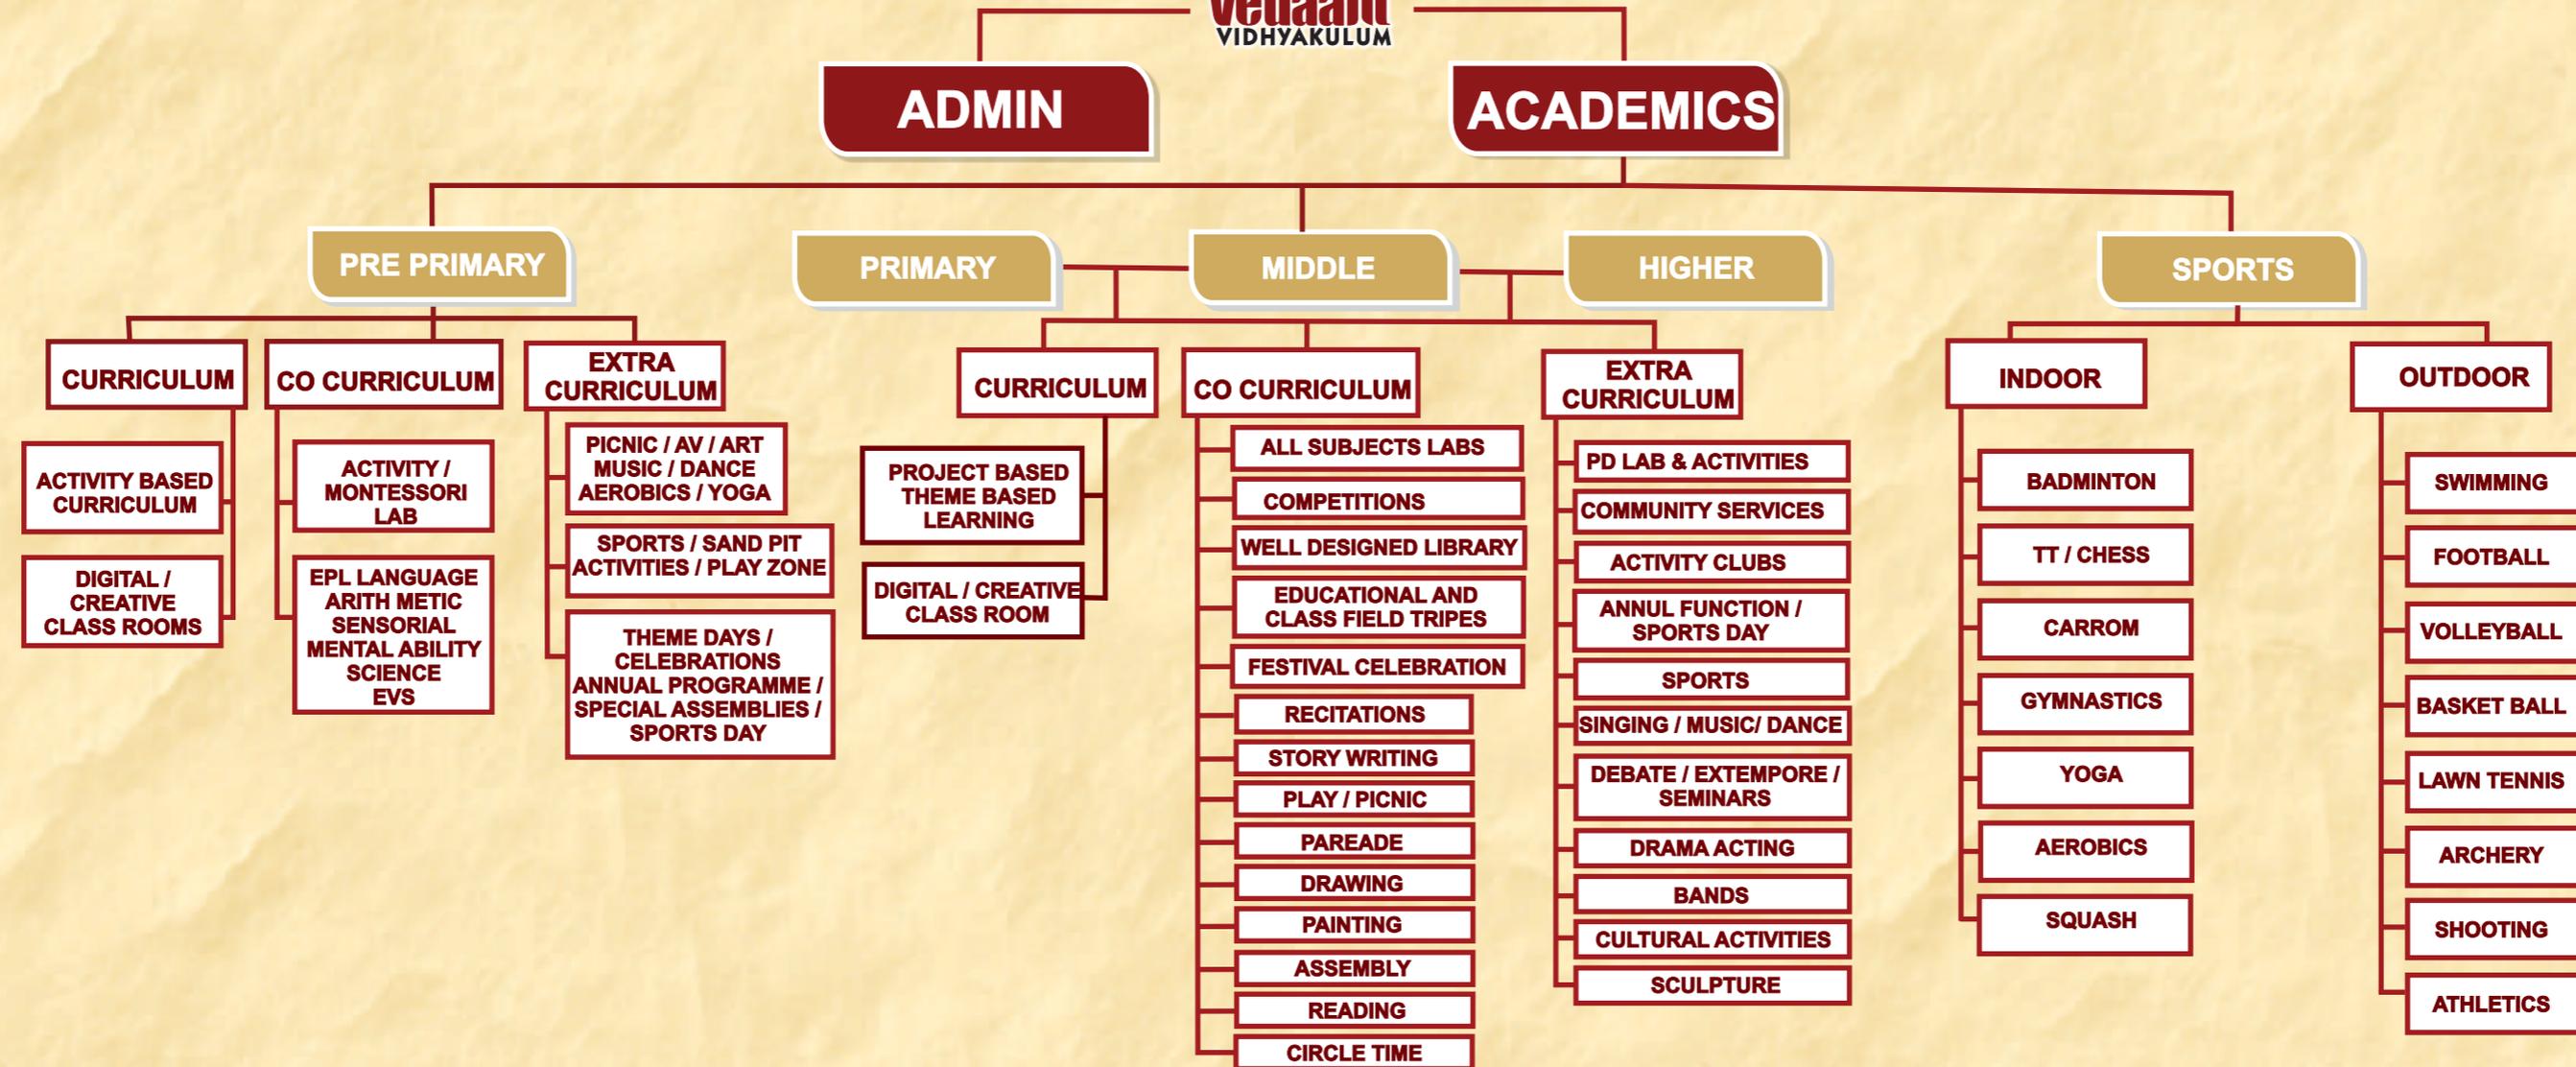

Vedaant will not only teach the secrets of achieving success but also the ethics of managing success too. So the overall dynamic development of pupil for life!

If a child lives with recognition, he learns to have a goal. If a child lives with encouragement he grows up to be a confident person. Vedaant therefore, does not measure intelligence quotient with numerical and linguistic skill but appreciate whatever ability the child possess – be it linguistic or naturalistic or kinesthetic (physical) or artistic.

Yesterday is gone, tomorrow has not yet come, we have only today, let us begin.

-Mother Teresa

TANVI- Thinking, Analytical, Numerical, Verbal, Imagination.

The Harkness table, Harkness method, or Harkness discussion is a teaching and learning method involving students seated in a large, oval configuration to discuss ideas in an encouraging, open-minded environment with only occasional or minimal teacher intervention.

Endeavour Edification

Students who are involved in their academics and learn with hands on practices experience a phenomenal growth in their education and the real life learning is experienced.

PBL

Commonly known as Project Based Learning or Problem Based Learning focuses on this important aspect of learning that emphasizes on the approach of teaching students by giving them the real life experience.

STEM - Science Technology Engineering & Math

Enhance learning, visualization to create environment of scientific temperament & cultivate the spirit of curiosity & innovation among young mind.

Objective of STEM is to foster curiosity, creativity & imagination in young minds and inculcate skills such as design mindset, computational thinking, adaptive learning; physical computing etc. Young mind will get a chance to work with tool & equipment to understand aspect of STEM.

ATL - Atal Tinkering Lab

Under A.I.M - Atal Innovative Mission, Atal Tinkering Lab is an approach of central government of India to create an environment of scientific temperament, innovation & creativity. Today, with this approach of inculcating hands on methodology in the current educational scenario. ATL is a workspace where young mind can give shape to their ideas through hands on do it yourself mode and learn innovative skills.

AR-VR

For fast & funway of learning by using AR & VR, students can be actively involved in the classrooms instead of just sitting & watching the board & studying from the text book or listening lecture.

POGIL - Process Oriented Guided Inquiry Learning

POGIL uses guided inquiry – a learning cycle of exploration, concept invention and application – as the basis for many of the carefully designed materials that students use to guide them to construct new knowledge. POGIL activities focus on developing higher-order thinking skills.

POGIL develops process skills such as critical thinking, problem solving, and communication through cooperation and reflection, helping students become lifelong learners.

Vertical teaching is when a group of mixed aged pupils (taken from two or three years) are taught together for the common good. It might help schools to offer a wider range of subjects for example and allow students to be streamed according to their ability

Vedaant Anthem

राहों पर चलना नहीं, खुद राह बनाना है
कांटो से डरना नहीं, उन पर चल के जाना है
हौसले का दामन लिये, कुछ कर दिखाना है
आसमाँ जो कम पडा तो सुराख बनाना है।

हम है Vedzz जो challenge को गले लगाते हैं
दुनिया जो करे वो नहीं, हम trends बनाते हैं...

खुद को बुलंदी पर उठाकर, नयी सोच जगाते है
सोच को फिर अमल में लाकर, future बनाते है
खुद से आगे बढ़ने की एक ज्योत जगाना है
आज को जी कर, अभी से कल को भी संवारना है।

हम है Vedzz जो challenge को गले लगाते हैं
दुनिया जो करे वो नहीं, हम trends बनाते हैं...

future के leaders बनने का हर गुर सीखेंगे
Vedzz बनेगें आइडिल और दुनिया को बदलेंगे
success के खुद rules बनाकर नाम कमाना है
dreams को real life बनाकर, मिसाल बनाना है।

we think we act we create
we think we act we create
आज को जी कर, अभी से कल को संवारना है।

हम है Vedzz जो challenge को गले लगाते हैं
दुनिया जो करे वो नहीं, हम trends बनाते हैं...

Bloom's Taxonomy was created in 1956 under the leadership of educational psychologist Dr. Benjamin Bloom in order to promote higher forms of thinking in education, such as analyzing and evaluating concepts, processes, procedures and principles, rather than just remembering facts.
